## CAMPUS NOTES

### ENGINEERING DRAWING

Vernon E. Otter, instructor in Engineering Drawing, was married on September 24. The bride, formerly Miss June S. Scholer, is a graduate of Whitman College and a member of Alpha Chi Omega sorority. During the past summer Mr. Otter has been employed by the State Department of Public Works in Idaho, where the ceremony took place.

During faculty plunge periods the Engineering Drawing staff have been adjourning to the new Natatorium.

The Engineering Drawing department employs from five to ten students as assistants every year. The choice is based on the drafting and general ability of the student. The lucky men this year are H. F. Carroll, Walter Czuba, Don Larrick, Ralph Van Atta, E. B. Nahuis, J. E. Batterson, and Robert Wehr.

### CERAMISTS HOLD FIRST MEETING

THE Student Branch of the American Ceramic Society held its first meeting of the year at 4:00 p. m., October 13, in Lord Hall. At the business part of the meeting, Paul Cecil was elected as Junior representative to the Engineer's Council.

Professors Watts, Carruthers, and King spoke to the group, giving the objectives and value of the Student Branch. This organization is open to all students interested in ceramics and they are invited to come to the meetings and join the Society. Meetings are usually held the second Tuesday of the month at 7:30 p. m. The place of meeting is announced previous to each meeting. At the next meeting, November 10, the following officers will be elected: secretary-treasurer from the Sophomore class, vice president from the Junior class, and a president from the Senior class. To qualify as a candidate for office, a student must have the signatures of ten paid-up members of the Society. Petitions may be taken out at the Ceramics Department office.

### STUDENT ACTIVITIES

Professor Fairbanks, as Faculty Adviser for the Ohio State University Glider Club, reports that the Club made 1,058 successful flights with the Baker MacMillan Glider during the school year 1930-1931. A flight in the Club's language is a round trip of two separate flights, which gives the Club members credit for 2,116 take-offs and an equal number of dead stick landings.

### ARCHITECTURE

The College of Architecture wishes to state that due to the present depression the graduates of last year's class in Architecture were unable to secure positions. Two members of last year's class have reported for graduate work, one of whom received a scholarship.

### PERSHING RIFLES

AMONG the eighty-six men pledged by Pershing Rifles this quarter are twenty-five engineers. They are:

Bert Carlos	Charles Redmond
John Stinson	James Geohagan
William Stowe	George Sexten
Herbert Thomas	Charles Frinck
John White	William Ferguson
William Horning	Charles Griffith
Frank Martin	Paul Holden
Roger Thompson	Arthur Haines
Richard Sayre	Roger Eckelberry
Daurice Dennis	Frank Dresner
Richard Koch	Howard Welser
Paul Heindes	Wayne Adams
Carl Casto	

The pledge captain of this group is W. F. Heimlich, who is assisted by Sergeants F. T. Geyer and D. D. King.

### A.I.E.E.

The A.I.E.E. held a smoker and meeting October 15 at the Ohio Union. Cards were enjoyed by about sixty men. On November 5 the second meeting of the year was held. At this meeting three talks on the life of Michael Faraday were given by the students. A portrait of Faraday was presented to the department of electrical engineering by the A.I.E.E. Because of the small number of men present, it was considered advisable by the chairman to postpone the election of officers which was to have taken place that night. President Charles Lucal presided at the meeting.

### NEW E.E. EQUIPMENT

A VISIT with Professor Kimberley of the E.E. Dept. disclosed the addition of new equipment and apparatus which will greatly facilitate the course of study in power generation and distribution. Various types of motors, generators, transformers, reactors, power plant switch and control panels, computing machines, and delicate measuring instruments are included in the new equipment.

### ETA KAPPA NU

ETA KAPPA NU held a smoker October 22 at the Theta Tau house after which the following candidates were selected: Goodsel, Hopson, Killoran, Kuhner, Morotta, Parish, Winkler, and Trimmer. President William Moore attended the national convention at Syracuse, New York, on October 30 and 31. The candidates were formally pledged at a dinner held November 4 at the Village. Initiation will take place November 14.
